OVERVIEW

Create a modern promotional poster for an Erasmus+ youth exchange titled "Prompt Your Future: AI-Powered Career Lab". The design should feel fresh, dynamic, youth-oriented and future-focused. Show a diverse group of young people aged 18–30 collaborating with laptops, smartphones and digital screens in a creative workshop setting. Include visual elements connected to artificial intelligence, career development, digital skills, equal access to the labour market, innovation and international cooperation. Add subtle symbols such as chat bubbles, AI interface elements, portfolio screens, CV/profile icons, LinkedIn-style networking visuals, and futuristic light overlays. The atmosphere should be inspiring, inclusive, empowering and professional, but still friendly and accessible for young people. Use a clean editorial layout, bold typography, and a contemporary Erasmus+ youth project aesthetic. Color palette: modern greens, soft blues, off-white, with energetic accents. Leave space for title and event details.

OBJECTIVES

Discover how AI tools can support career planning, job search and personal development in a practical and accessible way.

Build digital competences by testing tools such as ChatGPT, Canva AI and LinkedIn for professional use.

Create a digital portfolio and develop ideas for fairer access to the labour market through the "AI for Equal Access" hackathon.

TRAVEL BUDGET

(distances in the straight line)

Distance	Travel using ecological means of transport	Travel without using eco-friendly means of transport
10–99 km	56 EUR	28 EUR
100–499 km	285 EUR	211 EUR
500–1999 km	417 EUR	309 EUR
2 000–2 999 km	535 EUR	395 EUR
3000–3999 km	785 EUR	580 EUR
4000–7999 km	1 188 EUR	1 188 EUR
8000 KM or more:	1 735 EUR	1 735 EUR

We use only the Erasmus+ Distance Calculator to measure how many kilometers your refund is based on. Type your home as the starting place and Międzybrodzie Bialskie, Poland (the exchange location) as the destination. The number the calculator shows is the number of kilometers we use.

Example:

1. Open the Erasmus+ [Distance Calculator](#)
2. From: Your town/city (e.g., “Cluj-Napoca, Romania”).
3. To: Międzybrodzie Bialskie, Poland.
4. If the tool shows 467 km, then your refund distance is 467 km.

What happens next? Check the Refund Table. Find the distance range that includes your number. If your distance fits in that range, you get the refund shown in that row.

Example:

1. The calculator shows 467 km.
2. In the Refund Table, the range 100–499 km = €211
3. Because 467 is inside 100–499 km, your travel refund is €211
